

# Flight Bistro & Social Lounge Soars Into Huntington Beach

*An opportunity to satisfy your epicurean and esthetic hunger!*

Flight Bistro & Social Lounge has soared into Huntington Beach, providing guests a one-of-a-kind restaurant, social lounge and event space. Located on the corner of Adams Avenue and Beach Boulevard in the heart of Huntington Beach, the new destination from entrepreneur Stephen Chu serves contemporary American cuisine, incorporating Asian and Italian influences. It's sort of like Marco Polo going to Asia and returning to Italy via Southern California.

They've envisioned Flight Bistro & Social exclaims Steven Chu, owner and founder. "To honor Huntington Beach's beautiful seaside location, the design incorporates recycled, natural and energy-efficient materials that have low environmental impact whenever possible. The inspired culinary creations and selection of wine and signature cocktails offer guests an unforgettable experience." continued Chu. Green can be a color or a philosophy and here at Flight -they incorporated Green in to the philosophy behind their interior design.

The menu features a large selection of small plates in addition to signature flatbread pizzas, salads and entrees. Culinary creations incorporate organic, locally grown fruits and vegetables whenever possible. Conceived by famed Executive Chef John Gladish, whose resume of restaurants includes N9NE Steakhouse and Charlie Trotters in Chicago, in addition to the Regent Beverly Wilshire, the menu satisfies foodies and selective eaters alike. The wine list features an extensive selection of wines by the glass, and signature cocktails incorporate fresh spices, fruits and vegetables.

The 7,900-square-foot property fuses contemporary style with antique classics. The color palette of deep blue and gray with accents of yellow and

red reinforce a comfortably modern atmosphere to be enjoyed with friends, family or co-workers. Eye-opening features begin with a grand brass door that opens to reveal a natural quartz bar topped with a custom-designed centerpiece that artfully displays wine and spirits. Decorative glass doors, panel windows and textured drapes emphasize the rich, inviting atmosphere. A state-

of-the-art sound and lighting system throughout the bistro and lounge — including five 42-inch plasma televisions, four LCD screens and a projection system— further contribute to the setting.

Selecting eco-friendly materials with a low impact on the environment was a central theme of the design. Landscaping relies on low-voltage lighting and foliage that requires

minimal water. Décor features recycled and natural fabrics, an energy-efficient skylight, non-toxic paint and low-wattage lighting. In addition, the kitchen includes energy-efficient appliances and resource-saving practices.

The bistro and lounge provide many different capabilities for satisfying a variety of guests. In addition to the main dining room and bar area, two large patios allow for an evening under the stars, as well as a pet-friendly patio area

to enjoy the ambiance with your family pet. Flight Bistro's two private rooms offer intimacy for business meetings and conferences, as well as birthday parties and other celebrations.

The restaurant has full audio-visual capabilities and can cater to any type of event. Total occupancy at the restaurant is 280 seated, and 400 standing.

Flight Bistro & Social Lounge, located at 8082 Adams Ave., is open Tuesday through Sunday from noon to midnight. The restaurant can accommodate private events until 2 a.m. Reservations can be made by contacting 714-374-8300, www.flightoc.com and reserve@flightoc.com.
